

# Terms and Regulations

## Farm

- Farm must register with a certified farm
- All buyers remain anonymous to the farm to avoid any wrong doings to the plant due to personal reasons or so on.
- Each farm can collect 3% of the profit of the fruits obtained.
- When the buyer sell the tree the farm can takeover the plant without needing to paying anything

## Buyer

- All buyers must agree with the trading concept, which means the buyer has to accept any loss that they may face.
- The buyer can only view and monitor their plant through this system and cannot visit the farm physically
- The buyer has no rights on their tree once they sell it.
- The buyer cannot claim any compensation from the farm that planted their trees
- Every Purchasement includes the price of maintaining the tree and the labour force of the farm. So the price of every fruits can be varied according to the farms
- Although there are many types of fruit for each category, For the time being, The buyer has no rights to determine what types of fruits for each category they want, everything will be decided by the farm. For Example, there are many types of durians such as Musang King and so on.
